

Beloved Potential Temple Celebrant,

We are delighted to invite you to join us at this unique and exquisite healing retreat. Registration is open!

Feel free to forward this email to anyone you know that might be interested in attending, understanding that all people who wish to attend for the first time must schedule a screening interview (details given below).

Temple Theme: Bees & Honey

Mycelium, Bees, and Stardust are the central mysteries of the Living Love Revolution. The June 2022 Aphrodite Temple: Bees & Honey is focused on coming to life and awakening our desires and the abundant source of love in our hearts.

The buzzing of the bees enliven our hearts as we connect with each other to create a transpersonal community and culture based upon love that includes love of our own selves and our own bodies as well as extending that love to others and the planet herself (the Gaiac Body).

We align ourselves with images of nectar, honey and hive. We imitate the resonant sounds of bees buzzing. These cues help us embody our vision of an erotic Aphrodisiacal Culture. We are becoming a functional, satisfied group of people who are dedicated to developing themselves as a resource of Transpersonal Love for themselves, their community, and the planet.

This is the type of connection and community we are inviting you to join at our Aphrodite Temples.

Come to the Temple and experience this great oneness of being. Develop your skills of love, sensuality, and sex within this sacred and consent-based environment. Feel Golden waves of acceptance, friendliness, openness, and curiosity through your own body's felt experience and intentionally send these waves out into the rest of the world. Know that you are love. Love runs from you and through you, connecting you with the buzzing of the bees and their golden nectar.

"Leave Crete, Come here, Come to the holy place

Come to the sacred grove.

Your altars are smoking with incense.

Cold water sings through the fruited trees,

Everything is shaded under the bower of roses

And from the shimmering radiance of leaves,

an enchanted sleep drops down.

Here is a meadow of spring flowers where horses graze

and a soft wind gently breathes.

Come Aphrodite, pour your nectar into our golden cups.

In grace make the libation, bring your Melissas to life..."

-- Ode To Aphrodite, by Sappho, 6th Century BC

“To summarize my experience: exceptional, loving, honoured, respected, guided in safety, gently challenging at a pace that never felt too much, empowering, honest, sensual.

Out of it I no longer feel constrained by any views, used by any context that I invented around sex and sensuality; I have integrity in my choices and in both consenting and attaining consent with my self and with [an]other[s]. I have transcended “performative” intimacy and entered “co-created-magic” intimacy that realizes the full potential of my liberated aphrodisiacal imagination.” -
